DESCRIPTION

With bright white LEDs and a four-digit display, the WCD404W provides a highly visible time display wrapped in a sleek, white enclosure that matches with any décor. With advanced timer functions, the WCD404W provides functions available only from Rauland. Both count-up and count-down functions, as well as dual count-up timer features make the versatile WCD404W an ideal solution in school and hospital environments.

With four brightness levels and three alternating date and time display options, the WCD404W can be used in nearly any application that requires a clock to be readable from up to 150'.

When used with a Telecenter Communications System, the WCD404W can provide a class change count-down timer that minimizes student tardiness and increases staff productivity. The WCD404W can also be synchronized with Telecenter bells and class change tones.
